I am a student at the University of Rwanda, currently interning at ATLP as a junior developer. I am a dedicated hard worker, a reliable team player, and a natural leader. My passion is to become a senior software developer in the future, and I am committed to continuous learning and professional growth in the tech industry.

Experience

Junior Software Developer at Andela ATLP

Feb 2024 - Aug 2024

- Mastered programming fundamentals and gained hands-on coding experience
- Learned to build web applications with frontend and backend technologies
- Acquired skills in using Git for version control and team collaboration
- Practiced debugging, testing, and optimizing code
- Gained experience working in Agile development environments
- Understood database design and management with SQL and PostgreSQL
- Developed problem-solving and algorithmic thinking
- Improved communication, teamwork, and documentation skills
- Learned to deploy applications and implement CI/CD workflows

Junior Software Developer (Internship) at Andela

Aug 2024 - present

- Contributed to developing and maintaining web applications using React, Node.js, and GraphQL
- Implemented new features, debugged issues, and enhanced application performance
- Improved problem-solving skills, teamwork, and knowledge of the software development lifecycle.
